EDUCATION

B.E. Computer Engineering Pimpri Chinchwad College of Engineering and Research, Current CGPA: 8.25	Aug 2023 – July 2027
HSC Arihant College of Arts,Commerce and Science, Percentage:75.60%	June 2022 – March 2023
SSC-CBSE Dr. Kalmadi Shamarao Highschool, Percentage: 91.00%	June 2021 – March 2022

PROJECTS

Smart E-Commerce Feedback & Ticket Management System	2026
- Tech Stack: MERN (MongoDB, Express.js, React, Node.js), Flask, Machine Learning - Developed a full-stack feedback and ticket management system for handling customer complaints. - Implemented machine learning-based severity classification using Logistic Regression and TF-IDF. - Built a Flask API and integrated it with the MERN backend for real-time prediction. - Designed RESTful APIs, authentication (JWT), and an admin dashboard for ticket tracking and management. - Integrated priority detection, SLA tracking, and email notifications.	
Digital Compliance System	2024–2025
- Tech Stack: Node.js, Express.js, MongoDB, JavaScript, JWT - Developed a full-stack digital compliance management application using Node.js, Express.js, MongoDB, and JavaScript. - Designed RESTful APIs to manage users, compliance records, and audit workflows. - Implemented secure JWT-based authentication and role-based access control. - Integrated email notifications and applied input validation for secure and reliable user interactions.	
Spotify Clone (Music Streaming Web Application)	2025
- Developed a responsive music streaming web application using HTML, CSS, and JavaScript. - Implemented audio playback functionality using the HTML5 Audio API with controls such as play, pause, next, previous, and seek. - Built a dynamic playlist system enabling users to browse and play multiple songs. - Designed a modern UI inspired by Spotify using CSS Flexbox and Grid for responsive layout.	

SKILLS

Frontend: HTML, CSS, JavaScript Backend: Node.js, Express.js Databases: MongoDB, MySQL Tools/Version Control: Git, GitHub, VS Code Concepts: REST APIs, Auth, ML, NLP (TF-IDF, Logistic Regression), Data Analysis (Regression, Clustering, KNN)

CERTIFICATIONS

- Advanced C++ Training – Spoken Tutorial Project, IIT Bombay - From Relational Model (SQL) to MongoDB’s Document Model – Credly
